Thanks to citizen activism we (the ^{initially mostly} ~~Indian~~ ^{Indian} Nation) brought
the Mega Superfund issue to the federal level and
Bill Clinton did one of his only positive acts declaring a clean-up
Why is it taking so long?! More importantly WHY do we
continue to pollute the Willamette, Columbia, St John's, Vancouver, ^{etc} ~~Hood~~ ^{Bend} ~~etc~~
These 150 polluters should have been stopped a long time ago, before they
ingratulated themselves as "business interests" but more importantly we need

fine them enough and fee the new
"businesses" enough to ~~stop~~ clean up the
remnants of the past and deter continuous
stupidity in the present and the future. Repeat
offenders? See them and ban them.
make them pay for more monitoring

Let our people fish.

Gov't (City, County, State) is supposed to work for social welfare.
Oversight entities (EPA) are supposed to protect and
inform. Neither are doing their job; in fact,
they rule them and rule us.

"business" (PBA, etc) rule them and rule us.
Dredging is the fastest, least invasive, most effective
at all the cleanup proposals. I don't like it, but
it is the best I know of. More important: STOP
all pollution. D: Lit City pass a "resolution"
current to stop all new net carbon
Pollution? Needs Teeth
